

# DRKMDR for VIPs

Personal dark web protection

## At a Glance

### WHO IT'S FOR

Individuals digitally targeted by threat actors such as **executives, public figures, and other high impact people in your organization**

### WHY IT'S NEEDED

Just like the physical world, VIPs need a **security team able to protect them in dark web digital spaces** where threat actors plan and launch attacks on the dark web.

### HOW IT WORKS

Operatives infiltrate dark web groups to **monitor and respond to emerging threats and dark web chatter** to protect high impact individuals

**YOUR PERSONAL  
SECURITY DETAIL**

**ON THE DARK WEB**

### Prevent dark web threats from becoming physical

Reduce risks of SIM swaps, surveillance, travel interference, Swatting, and more

### Detect doxing and identity leaks

Identify exposed personal information (addresses, phone numbers, SSNs, etc.), implement protective measures, and alert law enforcement

### Uncover threat actor "super profiles" about you

Discover comprehensive intelligence dossiers criminals use for AI impersonation, targeted attacks, and sophisticated extortion schemes

### Monitor discussions mentioning your name

Track when threat actors discuss targeting you in private forums, revealing their specific intentions and planned methods
